ABIGAEL ADIGUN

COMPUTER ENGINEERING GRADUATE | SOFTWARE DEVELOPER

+234 812 575 8583 | abigaeladigun06@gmail.com | Lagos, Nigeria | linkedin.com/in/abigaeladigun

PROFILE SUMMARY

Computer Engineering graduate and Software developer with hands-on experience in software development and technical support gained through internships and projects. Possess working knowledge of JavaScript, Node.js, Express.js, MongoDB, HTML5, and CSS3, with experience building responsive web interfaces from UI designs and testing REST APIs using Postman. Strong academic record with graduating awards. Passionate about building user-focused digital solutions and using technology to solve real-world problems. Seeking a Graduate Software Engineering, Frontend Development, Backend Development, or IT Support role where I can contribute my technical skills, expand my knowledge, and continue to grow professionally.

TECHNICAL SKILLS

JavaScript • Node.js • Express.js • MongoDB • HTML • CSS • REST API Integration & Testing (Postman) • Git & GitHub • Responsive Design • Computer Networking • Microsoft Office Suite

WORK EXPERIENCE

Frontend Developer Intern — Esca Finance *Dec 2024 – Aug 2025*

- Built interactive web pages prototypes from approved UI designs as responsive, component-based interfaces.
- Ran usability testing and implemented improvements to website functionality and user experience.
- Provided technical support by diagnosing and resolving website-related issues, including testing API requests with Postman.
- Collaborated with designers and developers to implement responsive interfaces.

Technical Support Intern — TristarTech Edge Limited *Oct 2024 – Dec 2024*

- Troubleshot routine IT and network issues and assisted in network configuration and maintenance.
- Worked collaboratively with cross-functional teams to ensure timely completion of technical tasks.

PROJECTS

Digital Banking System (Node.js) — *TS Academy Software Development*

- Developing a Node.js banking app covering BVN/NIN onboarding, account creation, name enquiry, intra- and inter-bank transfers and balance checks.

Complaint Management Portal — *TS Academy Capstone Project*

- Building a portal to submit complaints, assign handlers and track resolution.

Smart Irrigation System Using IoT — *Final Year Engineering Project*

- Built the control software and sensor-integration logic for an IoT irrigation system (ESP32, C++, soil moisture sensor, relay, pump) that automates watering from live sensor data.

- Worked in a three-person engineering team across design, implementation and testing; authored the full documentation and final report, and presented it at the Faculty of Engineering Final Year Project Exhibition (Certificate of Participation).

EDUCATION

B.Eng. Computer Engineering — Ekiti State University, Ado-Ekiti

2020 – 2025

- Overall Best Graduating Student — Computer Engineering
- Overall Best Graduating Female Student — Computer Engineering
- Best Graduating Student in Information and Communication Technology

West African Examination Council Certificate — 2020

PROFESSIONAL DEVELOPMENT

- Forage — Introduction to Software engineering -Oct. 2026
- TS Academy — Software Development - Sept 2026
- Professors Without Borders — Empowering Digital Transformation Training, Aug 2025
- Linar School of Media and ICT — Web Development Training, June 2022 – Aug 2022

SOFT SKILLS

• Team Collaboration • Problem Solving • Presentation Skills • Strong Communication • Time Management • Adaptability
